

Enhancing Sustainability Through TCFD Assessments and CDP Disclosure

OVERVIEW

Aptar is a global leader in the design and manufacturing of a broad range of drug delivery, consumer product dispensing, and active packaging solutions. The company is headquartered in Crystal Lake, Illinois. Aptar's innovative solutions serve a variety of end markets, including pharmaceutical, beauty, personal care, home, food and beverage.

The company is deeply committed to sustainability and is continuously working to improve its disclosure on sustainability issues. Efforts also include benchmarking assessment, the classification and categorization of the financial impact for the climate-related risk and opportunity drivers in alignment with the TCFD (Task Force for Climate-related Financial Disclosure) guidance.

CHALLENGES

Identification

of climate-related risks and opportunities, and application of the TCFD methodology

Benchmark to competitors

regarding the assessment of climate-related risks and opportunities

Quantification

of the financial impact of climate-related risks and opportunities

Communication

of sustainability performance to investors and customers through recognized programs like TCFD and CDP

"Aptar, a CDP 2020 Climate A-List company, utilized Sphera's consulting services to validate climate-related risk and opportunity assessment and the corresponding financial impact quantification using TCFD methodology. This disclosure enabled us to provide our stakeholders with valid proof of our environmental performance."

— Dr. Michele Del Grosso,
Global Program Manager Sustainability, APTAR

SOLUTION

SPHERA'S SUSTAINABILITY CONSULTING SERVICES

Aptar worked with Sphera to validate a risks and opportunities assessment according to the TCFD methodology. Sphera's sustainability experts also provided feedback on methodology and guidance on the latest CDP reporting standards and helped incorporate the TCFD assessment results into Aptar's CDP climate change response for 2020.

Sphera's Sustainability Solutions enable companies to improve ESG performance, gain new investments, and future-proof their business by:

- Developing or improving ESG/sustainability strategies suitable for a specific business model
- Providing insights that help improve environmental rankings and disclosures for CDP, TCFD, GRI, SASB, SBTi
- Supplying robust sustainability data and software tools for efficient data-driven sustainability management and performance.

RESULTS

Aptar conducted climate-related risks and opportunity assessment based on TCFD methodology and successfully integrated it into the CDP disclosure, validated by Sphera's corporate sustainability and strategy experts. The TCFD assessment provided Aptar with valuable insights into the financial implications of their climate-related risks and opportunities.

Assessment and classification

of the climate-related risks and opportunities in alignment with TCFD.

Quantification and monetization

of the financial impact for climate-related risks and opportunities.

Result integration

in CDP reporting and improvement of CDP scoring.

Improved ESG performance and recognition

as CDP A-List company 2020.
