

HOW TO TURN SUSTAINABILITY COMMITMENTS INTO ACTION

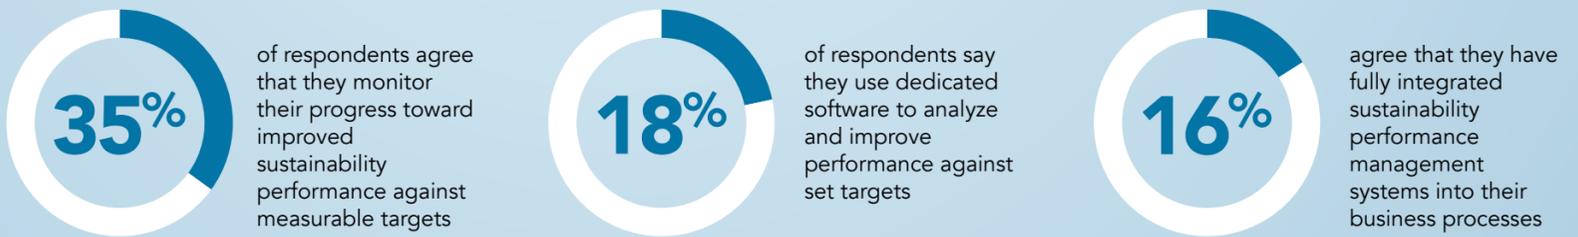

DIGITALIZATION CAN BE THE GAME-CHANGER

→ **BUSINESSES ARE AWARE OF THE IMPORTANCE OF ESG AND SUSTAINABILITY OBJECTIVES.** There is external pressure and high interest in a company's sustainability performance. We found that:

→ Our survey confirmed that **ORGANIZATIONS ARE AWARE OF THEIR SUSTAINABILITY JOURNEY**, the need to focus on carbon accounting, quantify their baseline, set goals, identify hot spots and improvement potentials, and report progress.

But how can they **ACCELERATE THE SUSTAINABLE TRANSFORMATION OF THEIR BUSINESS?**

Recent analyst reports confirm that EHS&S leaders understand that **digital technology plays an essential role in EHS&S management and performance**

VERDANTIX

“The accelerated digitization of EHS processes and the increasing long-term focus on operationalizing ESG and sustainability risk management will shape the EHS software market in the next five years.”
