

THE CHASM CONTINUES:

THE GAP BETWEEN SAFETY INTENT AND IMPLEMENTATION PERSISTS

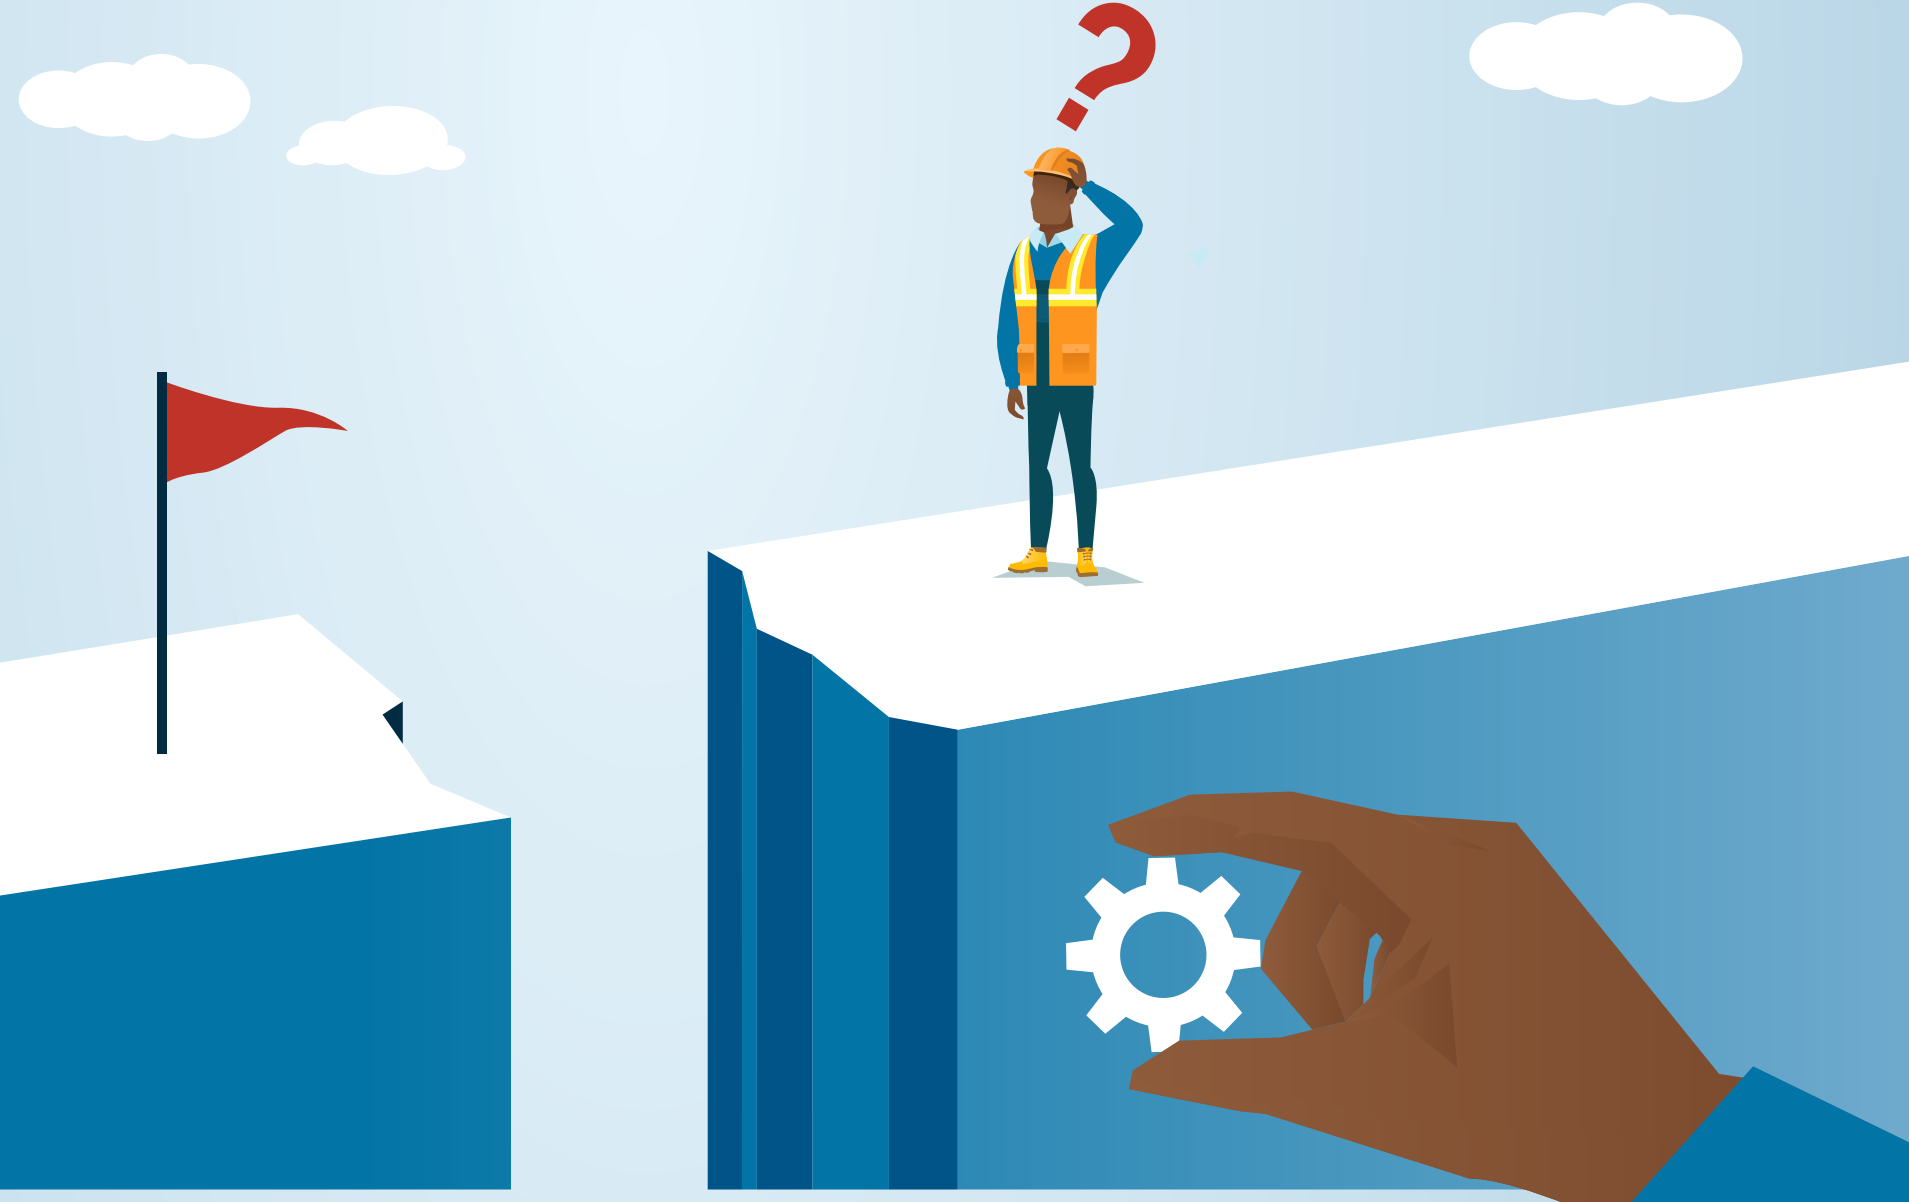

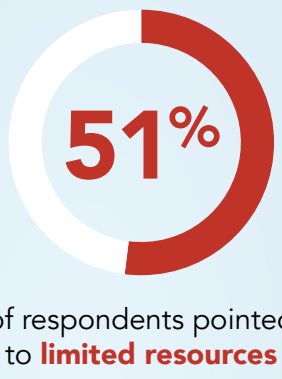

The Gulf Between **"SAFETY INTENT"** and **THE REALITY OF "WHAT HAPPENS"** Is Still Big.

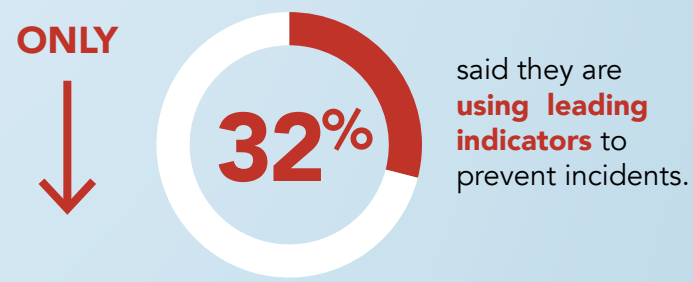

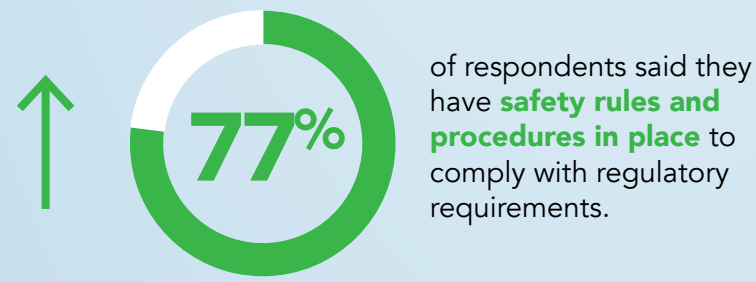

DRIVERS FOR SAFETY PERFORMANCE HAVE EVOLVED:
Creating a Safety Culture Is as Important as Compliance.

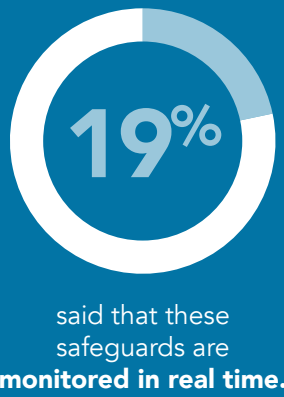

THE TOP THREE OBSTACLES to Delivering Planned Safety-Critical Maintenance and Inspections Remain Consistent.

SAFETY METRICS Provide a Huge Opportunity to Improve Overall Safety Performance.

MONITORING AND MANAGING RISK MUST GO DIGITAL.

DATA UTILIZATION Needs to **IMPROVE.**

SO WHAT'S THE SOLUTION?

GAIN A TRUE VIEW OF THE OPERATIONAL REALITY BY EXTRACTING, TRANSLATING AND AGGREGATING THE DATA FROM SENSORS, SYSTEMS AND HUMAN ACTIVITY

Provides common currency for disparate data

Unlocks meaningful relationships, previously unseen

Provides a realistic view of the operational reality

SHOW IN REAL-TIME

- What's happening
- When it's happening
- Where it's happening
- What's driving the risk

Integrated workflows ensure safe & efficient execution

Explore how to advance your Operational Risk strategy with Sphera Operational Risk Management Software & Services
