

Examining the Sustainability of the Internet

Industrial Example

- LAYER 4**
The device used by the person who performs maintenance on a machine
- LAYER 3**
Transmission of the data to the service user
- LAYER 2**
The facility where servers are stored and operated
- LAYER 1**
The server on which data (originating from sensors on a machine) is stored

- LAYER 4**
The device(s) used by the end consumer
- LAYER 3**
The service of sharing social experiences with the world and transmitting the video as data to end users' devices
- LAYER 2**
The facility where servers are stored and operated
- LAYER 1**
The server on which the video (data) you created for upload exists

Social Networking Example
